Employment in Josephine County: August 2019

Local Government Education Hiring Boosts Total Payroll Employment

Total Josephine County payroll rose by just 50 jobs in August, mostly due to a gain of 50 jobs in local government education. Transportation, warehousing, and utilities employment rose by 20 jobs and private education and health services eked out a gain of 10 jobs. Small losses were estimated in leisure and hospitality (-20); wood product manufacturing (-10); retail trade (-10); and other services (-10). Government employment increased by 60 jobs over the month with a gain of 50 jobs in local government education responsible for most of the job increase.

Over the year, Josephine County payroll employment gained 620 jobs, an increase of 2.3 percent and slightly faster than Oregon's statewide increase of 1.8 percent. Industries adding notable new jobs included private education and health services (+210); manufacturing (+70); professional and business services (+70); financial activities (+50); and construction (+50). A few industries had estimated job losses since August 2018. Those were retail trade (-120); wholesale trade (-20); and mining and logging (-10).

Government employment rose by 180 jobs over the year. Local government education gained 100 jobs and local government excluding educational services added 70 jobs since August 2018. Federal government employment gained 10 jobs in the past year.

Next Press Releases

The Oregon Employment Department plans to release the September county and metropolitan area unemployment rates and employment survey data on Tuesday, October 22nd, and the statewide unemployment rate and employment survey data for September on Tuesday, October 15th.

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly payroll employment and labor force data for Oregon's metropolitan areas and counties. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

The Oregon Employment Department payroll employment estimates are revised quarterly using information from unemployment insurance tax records. All department publications use data from this *official Oregon series* unless noted.

The department also makes the BLS-produced nonfarm payroll employment series for metropolitan areas available. These are revised annually by BLS.

The most recent month is preliminary, the prior month is revised. Prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

Civilian labor force includes employed and unemployed individuals 16 years and older by place of residence.

Employed includes payroll employment, self-employed, unpaid family workers, domestics, agriculture, and labor disputants.

Unemployment rate is calculated by dividing unemployed by civilian labor force.

Nonfarm Payroll Employment: Official Oregon Series. Data are by place of work and cover full- and part-time employees who worked or received pay for the pay period that includes the 12th of the month. The data exclude the self-employed, volunteers, unpaid family workers, and domestics.
