Employment in Yamhill County: June 2019

Yamhill County's Unemployment Rate at 3.6 Percent

Yamhill County's unemployment rate was 3.6 percent in June, essentially unchanged from its May revised rate of 3.7 percent. Oregon's statewide unemployment rate in June was 4.1 percent, essentially unchanged from its revised May rate of 4.2 percent.

Yamhill County's employment losses in June were smaller than normal; total nonfarm employment decreased 530 jobs, when a decrease of roughly 560 jobs would be expected. Seasonally adjusted employment increased 30 between May and June. Yamhill County's employment level was 3,530, or 11.2 percent, above its pre-recession employment peak in September 2007.

Yamhill County's employment increased 640 over the past year, a 1.9 percent increase. Yamhill County's employment growth was slower than the state, but faster than the nation. Oregon's employment was up 2.4 percent over the past year and the U.S. grew 1.5 percent.

Yamhill County's private-sector employment was up 630 over the past year, growing 2.2 percent. Public-sector employment has added 10 jobs, an increase of 0.2 percent.

The fastest-growing private-sector industries over the past year included: information (+110 jobs, or 47.8%); professional and business services (+130 jobs, or 6.7%); and other services (+50 jobs, or 4.5%).

Next Press Releases

The Oregon Employment Department plans to release the July county and metropolitan area unemployment rates on Tuesday, August 20 and the statewide unemployment rate and employment survey data on Tuesday, August 13.

The most recent month is preliminary, the prior month is revised. Prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

Civilian labor force includes employed and unemployed individuals 16 years and older by place of residence.

Employed includes payroll employment, self-employed, unpaid family workers, domestics, agriculture, and labor disputants.

Unemployment rate is calculated by dividing unemployed by civilian labor force.

Nonfarm Payroll Employment: Data are by place of work and cover full- and part-time employees who worked or received pay for the pay period that includes the 12th of the month. The data exclude the self-employed, volunteers, unpaid family workers, and domestics.

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly payroll employment and labor force data for Oregon's metropolitan areas and counties. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

The Oregon Employment Department payroll employment estimates are revised quarterly using information from unemployment insurance tax records. All department publications use data from this *official Oregon series* unless noted.

The department also makes the BLS-produced nonfarm payroll employment series for metropolitan areas available. These are revised annually by BLS.
