## Employment in Douglas County

### Douglas County's Unemployment Rate was 6.5% in November

Douglas County's seasonally adjusted unemployment rate was 6.5% in November and 6.2% in September. The October unemployment rate is not available since underlying data was not collected due to the federal government shutdown that month. Over the year, Douglas County's seasonally adjusted unemployment rate is up from 5.5% in November 2024. The Oregon rate was 5.2% and the U.S. rate was 4.6%

Douglas County's seasonally adjusted payroll employment increased by 50 jobs in November after a loss of 200 in October and a gain of 110 in September.

In the not seasonally adjusted private-sector industries in November, there were gains in transportation, warehousing, and utilities (70), retail trade (30), and private education and health services (30). There were losses in leisure and hospitality (-80), professional and business services (-50), and manufacturing (-30).

Government decreased by 30 in the month of November from losses in federal government (-20) and local government (-10).

When comparing November 2025 with November 2024, seasonally adjusted total nonfarm employment increased by 80 jobs, or 0.2%. There were relatively large private-sector over-the-year gains in private education and health services (260) and professional and business services (110). There were relatively large losses in retail trade (-170), manufacturing (-140), and leisure and hospitality (-40).

Government rose 50 over the year in November due to gains in local education (70), Indian tribal (20), and state government (10) that were countered by losses in federal government (-40), and other local government (-10).

### Next Press Releases

The Oregon Employment Department plans to release the December county and metropolitan area unemployment rate and employment survey data on Tuesday, Jan. 27, and the statewide unemployment rate and employment survey data for December on Thursday, Jan. 22.

Local government excluding education and tribal	1,560	1,570	1,570	-10	-10

The most recent month is preliminary, the prior month is revised. Prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

Civilian labor force includes employed and unemployed individuals 16 years and older by place of residence.

Employed includes payroll employment, self-employed, unpaid family workers, domestics, agriculture, and labor disputants.

Unemployment rate is calculated by dividing unemployed by civilian labor force.

Nonfarm Payroll Employment: Data are by place of work and cover full- and part-time employees who worked or received pay for the pay period that includes the 12th of the month. The data exclude the self-employed, volunteers, unpaid family workers, and domestics.

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly payroll employment and labor force data for Oregon's metropolitan areas and counties. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

The Oregon Employment Department payroll employment estimates are revised quarterly using information from unemployment insurance tax records. All department publications use data from this *official Oregon series* unless noted.

The department also makes the BLS-produced nonfarm payroll employment series for metropolitan areas available. These are revised annually by BLS.
