## **Employment in Albany MSA (Linn County): September 2025**

### **Linn County's Unemployment Rate Increases to 5.6%**

Linn County's seasonally adjusted unemployment rate was 5.6% in September, up slightly from its August rate of 5.4%. Oregon's statewide unemployment rate in September was 5.2%, up from its August rate of 5.0%.

Linn County's employment losses in September were larger than normal; total nonfarm employment decreased by 120 jobs, when employment would be expected to increase 100. As a result, seasonally adjusted employment was down 220 between August and September. Employment is now 1.6%, or 750 jobs, above the pre-pandemic employment level in February 2020.

Linn County's seasonally adjusted total nonfarm employment was down 470 (-1.0%) over the past year.

Private-sector employment was down 240 in September. Trade, transportation, and utilities (-110 jobs, -1.1%) had the largest employment losses in September. Construction employment dropped 50 jobs or -1.4%.

Public-sector employment added 120 jobs in September. Local government employment increased 120. State government employment was up 10 jobs. Federal government employment was down 10 jobs.

### **Next Press Releases**

The Oregon Employment Department plans to release the November county and metropolitan area unemployment rates and employment survey data on Tuesday, Jan. 13, and the statewide unemployment rate and employment survey data for November on Wednesday, Jan. 7.

The most recent month is preliminary, the prior month is revised. Prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

Civilian labor force includes employed and unemployed individuals 16 years and older by place of residence.

Employed includes payroll employment, self-employed, unpaid family workers, domestics, agriculture, and labor disputants.

Unemployment rate is calculated by dividing unemployed by civilian labor force.

Nonfarm Payroll Employment: Official Oregon Series. Data are by place of work and cover full- and part-time employees who worked or received pay for the pay period that includes the 12th of the month. The data exclude the self-employed, volunteers, unpaid family workers, and domestics.

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly payroll employment and labor force data for Oregon's metropolitan areas and counties. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

The Oregon Employment Department payroll employment estimates are revised quarterly using information from unemployment insurance tax records. All department publications use data from this *official Oregon series* unless noted.

The department also makes the BLS-produced nonfarm payroll employment series for metropolitan areas available. These are revised annually by BLS.
