## Employment and Unemployment in the Portland Metropolitan Area September 2025

The Oregon Employment Department released September 2025 employment and unemployment data today for the Portland Metropolitan Area after a significant delay due to the federal government shutdown.

The Portland metropolitan area's unemployment rate was 4.9% in September compared with 4.7% in August and 4.1% in September 2024. The unemployment rate has gradually risen from a post-pandemic low of 3.2% set in April 2023. Approximately 69,600 area residents were unemployed; 17,000 more than a year earlier. Oregon's unemployment rate was 5.2% and the national rate was 4.4% in September.

The metro area's seasonally adjusted nonfarm employment declined by 1,100 jobs in September. August's gains were revised down from 4,300 to 1,700 jobs.

Construction continued its long-term decline in September (-1,000 jobs), shedding roughly twice as many jobs as typical for this time of year. Financial activities also cut twice as many jobs, declining by 1,300 jobs across all published sectors. Private education's gains were smaller than usual, likely due to fewer seasonal layoffs during summer break.

Over the past 12 months, the metro area has lost 12,200 jobs (not seasonally adjusted). Most major industries are in the red, led by manufacturing (-6,900; -5.6%), professional and business services (-4,800; -2.5%), and construction (-3,500; -4.2%). On the other end of the spectrum, private health care and social assistance (+5,800; +3.3%), transportation and warehousing (+2,100; +4.4%), and leisure and hospitality (+600; +0.5%) have added jobs over the year.

### Next Press Release

The Oregon Employment Department will release the Portland metropolitan area's unemployment rate and employment survey data for October and November on Tuesday, Jan. 13.

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly payroll employment and labor force data for Oregon's metropolitan areas and counties. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

The Oregon Employment Department payroll employment estimates are revised quarterly using information from unemployment insurance tax records. All department publications use data from this *official Oregon series* unless noted.

The department also makes the BLS-produced nonfarm payroll employment series for metropolitan areas available. These are revised annually by BLS.

The most recent month is preliminary, the prior month is revised. Prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

Civilian labor force includes employed and unemployed individuals 16 years and older by place of residence.

Employed includes payroll employment, self-employed, unpaid family workers, domestics, agriculture, and labor disputants.

Unemployment rate is calculated by dividing unemployed by civilian labor force.

Nonfarm Payroll Employment: Official Oregon Series. Data are by place of work and cover full- and part-time employees who worked or received pay for the pay period that includes the 12th of the month. The data exclude the self-employed, volunteers, unpaid family workers, and domestics.

The Portland-Vancouver-Hillsboro metropolitan area includes Clackamas, Columbia, Multnomah, Washington, and Yamhill counties in Oregon, and Clark and Skamania counties in Washington State.
