## **Employment in Salem MSA (Marion and Polk Counties): September 2025**

### **Salem MSA's Unemployment Rate Increased to 5.0%**

The Salem MSA's seasonally adjusted unemployment rate was 5.0% in September, up from its August rate of 4.9%. Oregon's statewide unemployment rate in September was 5.2%, up from its August rate of 5.0%.

Employment gains in the Salem MSA in September were larger than normal; total nonfarm employment increased by 3,500 jobs, when an employment increase of 2,700 jobs would be expected. As a result, seasonally adjusted employment was up 800 between August and September. With September's gains, employment is up 8.6% or 15,000 jobs above the pre-pandemic employment level in February 2020.

Overall, the private sector added 1,300 jobs in September. The largest private-sector job gains in September were reported in professional and business services (+1,600 jobs, +8.7%). Health care and social assistance added 600 jobs in September.

The public sector added 2,200 jobs in September. Local government was up 2,300 jobs in September. State government employment was down 100 jobs. Federal government employment was unchanged.

### **Next Press Releases**

The Oregon Employment Department plans to release the November county and metropolitan area unemployment rates and employment survey data on Tuesday, Jan. 13, and the statewide unemployment rate and employment survey data for November on Wednesday, Jan. 7.

The most recent month is preliminary, the prior month is revised. Prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

Civilian labor force includes employed and unemployed individuals 16 years and older by place of residence.

Employed includes payroll employment, self-employed, unpaid family workers, domestics, agriculture, and labor disputants.

Unemployment rate is calculated by dividing unemployed by civilian labor force.

Nonfarm Payroll Employment: Official Oregon Series. Data are by place of work and cover full- and part-time employees who worked or received pay for the pay period that includes the 12th of the month. The data exclude the self-employed, volunteers, unpaid family workers, and domestics.

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly payroll employment and labor force data for Oregon's metropolitan areas and counties. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

The Oregon Employment Department payroll employment estimates are revised quarterly using information from unemployment insurance tax records. All department publications use data from this *official Oregon series* unless noted.

The department also makes the BLS-produced nonfarm payroll employment series for metropolitan areas available. These are revised annually by BLS.
