Employment in South Coast: November 2025

South Coast Payroll Employment Rises Over the Year

Coos County total payroll employment rose by 40 jobs in November. Industries with estimated job gains over the month included retail trade; transportation, warehousing, and utilities; and professional and business services, each adding 20 jobs. Government employment increased by 60 jobs in November with gains in local government education (+60), and federal government (+10). There was slight loss in local government excluding education and tribal employment (-10).

Since November 2024, Coos County payroll employment rose by 80 jobs, a gain of 0.3%. Employment gains occurred in leisure and hospitality (+110); retail trade (+90); manufacturing (+80); private education and health services (+70); and construction (+50). Losses were estimated in professional and business services (-130); transportation, warehousing, and utilities (-40); and mining and logging (-20). Government employment fell by 110 jobs. Local government excluding education and tribal employment fell by 160 jobs while Indian tribal local government employment rose by 60 jobs over the year.

Curry County payroll employment fell by 100 jobs in November, mostly due to a seasonally typical decline of 90 jobs in leisure and hospitality. Other sectors showed little job movement.

Over the past year, Curry County payroll employment climbed by 90 jobs for an increase of 1.3%. Job gains were estimated in private education and health services (+50); manufacturing (+50); and financial activities (+30).

Next Press Releases

The Oregon Employment Department plans to release the December county and metropolitan area unemployment rates and employment survey data on Tuesday, Jan. 27th, and the statewide data for December on Thursday, Jan. 22nd.

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly payroll employment and labor force data for Oregon's metropolitan areas and counties. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

Please note- October data are blank and MSA Seasonally Adjusted data for November are blank until BLS determines whether or not to provide these data.

The Oregon Employment Department payroll employment estimates are revised quarterly using information from unemployment insurance tax records. All department publications use data from this *official Oregon series* unless noted.

The department also makes the BLS-produced nonfarm payroll employment series for metropolitan areas available. These are revised annually by BLS.
