## **Employment in Yamhill County: September 2025**

### **Yamhill County's Unemployment Rate Increases to 4.8%**

Yamhill County's seasonally adjusted unemployment rate was 4.8% in September, up from its revised rate of 4.6% in August. Oregon's statewide unemployment rate in September was 5.2%, up from its revised August rate of 5.0%.

Yamhill County's employment gains in September were less than normal; total nonfarm employment increased 740 jobs, when an employment increase of 1,020 jobs would be expected. As a result, seasonally adjusted employment was down 280 in September. Employment is 1,710 jobs (+4.8%) above the pre-pandemic level in February 2020.

The private sector gained 330 jobs in September. The largest private-sector industry employment gains in September were reported in private education services (+410 jobs, +18.7%) and manufacturing (+50 jobs, +0.7%).

Yamhill County's public-sector employment was up 410 in September. Local government employment was up 410 jobs. State and federal government employment were both unchanged in September.

### **Next Press Releases**

The Oregon Employment Department plans to release the November county and metropolitan area unemployment rates and employment survey data on Tuesday, Jan. 13, and the statewide unemployment rate and employment survey data for November on Wednesday, Jan. 7.

The most recent month is preliminary, the prior month is revised. Prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

Civilian labor force includes employed and unemployed individuals 16 years and older by place of residence.

Employed includes payroll employment, self-employed, unpaid family workers, domestics, agriculture, and labor disputants.

Unemployment rate is calculated by dividing unemployed by civilian labor force.

Nonfarm Payroll Employment: Data are by place of work and cover full- and part-time employees who worked or received pay for the pay period that includes the 12th of the month. The data exclude the self-employed, volunteers, unpaid family workers, and domestics.

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly payroll employment and labor force data for Oregon's metropolitan areas and counties. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

The Oregon Employment Department payroll employment estimates are revised quarterly using information from unemployment insurance tax records. All department publications use data from this *official Oregon series* unless noted.

The department also makes the BLS-produced nonfarm payroll employment series for metropolitan areas available. These are revised annually by BLS.
