Employment in Lane County (Eugene MSA)

Lane County's Payroll Employment Drops by 100 in October

Lane County's payroll employment dropped a seasonally adjusted 100 jobs in October after a loss of 1,700 in September and no change in August. The county has regained 81% of the jobs lost in March and April 2020 at the onset of the COVID-19 crisis.

In the not seasonally adjusted private-sector industries in October, there were gains in professional and business services (700) and retail trade (200). There was a relatively large loss in leisure and hospitality (-300).

Government gained 1,100 jobs in October due to a seasonal gain in local education caused by the beginning of a new school year.

When comparing October 2023 with October 2022, total nonfarm employment is up a seasonally adjusted 1,400 jobs, or 0.9%. There were over-the-year gains in private education and health services (1,400); construction (400); leisure and hospitality (400); professional and business services (300); and other services (200). There were losses in administrative and support services (-1,100), food and beverage retailers (-300), and financial activities (-200).

There was an over-the-year decrease of 1,600 in government due to a loss of 2,000 in local education that was countered by increases of 200 in noneducation local government and 100 each in federal and state government.

Lane County's seasonally adjusted unemployment rate was unchanged at 3.8% in October compared with a revised 3.8% in September. The rate is lower than the 5.1% recorded in October 2022. Lane County's record low rate was 3.5% in December 2019. The Oregon seasonally adjusted October rate was 3.6% and the U.S. rate was 3.9%.

Next Press Releases

The Oregon Employment Department plans to release the November county and metropolitan area unemployment rates and employment survey data on Wednesday, Dec. 27th and the statewide unemployment rate and employment survey data for November on Wednesday, Dec. 20th.

The most recent month is preliminary, the prior month is revised. Prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

Civilian labor force includes employed and unemployed individuals 16 years and older by place of residence. Employed includes payroll employment, self-employed, unpaid family workers, domestics, agriculture, and labor disputants. Unemployment rate is calculated by dividing unemployed by civilian labor force.

Nonfarm Payroll Employment: Official Oregon Series. Data are by place of work and cover full- and part-time employees who worked or received pay for the pay period that includes the 12th of the month. The data exclude the self-employed, volunteers, unpaid family workers, and domestics.

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly payroll employment and labor force data for Oregon's metropolitan areas and counties. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

The Oregon Employment Department payroll employment estimates are revised quarterly using information from unemployment insurance tax records. All department publications use data from this *official Oregon series* unless noted.

The department also makes the BLS-produced nonfarm payroll employment series for metropolitan areas available. These are revised annually by BLS.
