(1) Seasonally adjusted rates for the United States and Oregon are official Bureau of Labor Statistics (BLS) series. Source of Metro data is BLS and LAUS. Source of county data is OED.

(2) Portland-Vancouver-Hillsboro MSA includes Clackamas, Columbia, Multnomah, Washington, and Yamhill counties in Oregon and Clark and Skamania counties in Washington.

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly payroll employment and labor force data for Oregon's metropolitan areas and counties. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

The Oregon Employment Department payroll employment estimates are revised quarterly using information from unemployment insurance tax records. All department publications use data from this *official Oregon series* unless noted.

The department also makes the BLS-produced nonfarm payroll employment series for metropolitan areas available. These are revised annually by BLS.
